St Peter's RC Primary School

PE and School Sport Reporting and Funding

2025/2026 – Budget provided £19,500 Actual money spent £19,625

The five key indicators used for PE and Sport Premium reporting in primary schools in England are:

1. Engagement of all pupils in regular physical activity.
2. Raising the profile of PE and sport across the school as a tool for whole-school improvement.
3. Increased confidence, knowledge and skills of all staff in teaching PE and sport.
4. Broader experience of a range of sports and activities offered to all pupils.
5. Increased participation in competitive sport.

School Sports Partnership, powered by EdStart — PE provision for two half-days per week (10,605)	A range of different PE lessons are timetabled throughout the school year for different year groups. Supplied with after school extra curricular clubs.	Specialist sports coaches provide two half-days of PE each week, giving pupils regular opportunities to develop their fitness, coordination, movement and fundamental sporting skills. The sessions encourage children to	Regular specialist-led sessions demonstrate the importance of PE and sport across the school. Pupils are encouraged to value physical activity, develop teamwork and perseverance, and recognise the benefits of leading a healthy, active lifestyle.	Teachers have opportunities to work alongside specialist coaches, observe effective teaching strategies and develop their subject knowledge. This supports staff in delivering engaging, high-quality PE lessons and helps build sustainable expertise within the school.	Pupils experience a variety of sports and physical activities through the planned PE programme. This enables them to develop new skills, discover interests and participate in activities suited to a range of abilities.	Specialist coaching helps pupils develop the skills, confidence and understanding needed to take part in intra-school and inter-school sporting opportunities, preparing them to participate in competitions where available.
Subscription to the Blackburn with Darwen School Games and School Sport	Provides a comprehensive, flexible and responsive service	The partnership provides access to sporting festivals and activities that encourage pupils	Membership demonstrates the school's commitment to school sport and	Subject leaders benefit from access to local and national PE and sport	Pupils can access a wider range of sporting opportunities through Blackburn	The partnership enables the school to participate in competitions and

Partnership (BWDSGT) (£120)	to assist subject leaders and Head Teachers to support them in the development and delivery of PE and School Sport in an effective and professional manner. In addition, the BWDSGT will provide services and support from local and national resources/programmes to maximise young people's involvement and strengthen School's PE and Sport offering.	to participate in physical activity and experience the enjoyment of sport.	enables pupils to represent their school at local sporting events. It also provides subject leaders with access to current information, resources and opportunities to improve provision.	initiatives, professional information and opportunities to develop their understanding of effective PE and school sport provision. This knowledge can inform future planning and support improvements across the school.	with Darwen school sport events and festivals. Activities can be selected to provide opportunities for children of different ages, abilities and needs, including pupils with SEND.	sporting festivals alongside other local schools. This gives pupils the opportunity to represent their school, develop sportsmanship and experience competition in a supportive environment.
Staff-led after-school clubs	Children are able to access different sports and take part in BWD school sports.	Staff-led after-school clubs provide pupils with additional opportunities to be active, develop physical skills and enjoy taking part in sport and games	The provision of a range of clubs demonstrates that physical activity is valued throughout the school. It encourages children to participate,	Staff gain experience in organising and supporting sporting activities, managing groups and encouraging participation. This can strengthen	By offering different clubs, the school provides opportunities for pupils to try activities beyond their usual PE lessons. This	Where clubs include team games and competitive activities, pupils can practise applying rules, working collaboratively

		outside normal lesson time.	develop positive relationships and recognise the importance of an active lifestyle.	their confidence in promoting physical activity and supporting pupils' sporting development.	helps children discover new interests, develop different skills and build confidence.	and developing the skills needed to participate in school competitions and sporting events.
Top-up swimming and water safety	Children in KS2 receive small group swimming lessons during the school day. Children also receive tuition on safe rescue on a number of different situations. This has proved a great success with 95% year 6 children being able to swim 25 metres competently, using a range of strokes effectively.	Swimming lessons provide pupils with opportunities to participate in physical activity that develops stamina, coordination, strength and overall fitness. Small-group instruction enables pupils to receive focused support as they develop their skills.	The school prioritises swimming proficiency and water safety as important life skills. The programme reinforces the importance of physical activity, personal safety and developing confidence in different sporting environments.	Working alongside qualified swimming instructors can help school staff gain a better understanding of pupils' swimming progress and the skills required to achieve national curriculum swimming outcomes. Specialist instructors provide the technical expertise needed to teach swimming and water safety effectively.	Swimming provides pupils with access to a physical activity that may not otherwise be available within the school's usual PE provision. Pupils develop a range of swimming strokes, improve water confidence and learn safe self-rescue techniques.	Although swimming provision primarily develops essential life skills rather than competition, pupils gain the confidence and technical ability needed to access further swimming opportunities and, where appropriate, school swimming events.

Purchase of PE equipment (£1390)	This provides pupils with high-quality resources that support active participation, skill development and a broad, inclusive physical education curriculum.	The purchase of PE equipment enables pupils to participate actively in lessons and sporting activities. Having suitable resources available supports practical participation, skill development and increased opportunities for movement.	Good-quality equipment helps the school deliver engaging PE lessons and promote a positive attitude towards physical activity. Appropriate resources support the delivery of a varied and well-organised PE programme.	: Access to appropriate equipment enables teachers to plan and deliver a wider range of activities and adapt lessons to meet pupils' needs. This supports staff in providing structured opportunities for pupils to practise and refine sporting skills.	A range of PE equipment enables pupils to experience different sports, games and physical activities. Resources can be used to develop fundamental movement skills, coordination, balance, throwing, catching and teamwork.	Appropriate equipment allows pupils to practise the skills and techniques required for team games and individual sports. It supports the development of game-specific skills and helps prepare pupils for inter-school competitions and sporting festivals.
